

**Colour meets
Structure**

**Unlimited
possibilities
for the facade**

Life
COLORED BY BAUMIT

- Individual structures and textures
- Creative, colourful and unique
- Endless design possibilities

The individual and creative facade

New Baumit CreativTop will open up infinite possibilities for the creative design of facades. Especially for Baumit External Wall Insulation Systems where CreativTop offers exciting new opportunities for colour and texture.

The individual appearance of a facade is not only dependent on colour. Think creatively and give the plaster every possible texture too - with the freedom for modelling offered by Baumit CreativTop.

Optics you can feel

Those who appreciate the almost unlimited possibilities of the legendary Baumit Life® colour system will be thrilled even more by Baumit CreativTop. This versatile exterior render can be tinted in 758 possible colour tones and creative combinations. The imagination knows no limits.

Whether grooved or floated, fine, coarse or smooth – almost unlimited texturing options finally become a reality with Baumit CreativTop. Exterior walls can have their own individual look not only with the right colour, but with the right texture too. The four available grain sizes from Max to S-Fine allow this result.

Results count

The application of Baumit CreativTop can begin immediately following the completion of the drying time of the Baumit Uniprimer. The layer thickness is dependent upon the chosen application technique. A wide range of application techniques are possible. What counts is the result. Baumit CreativTop can be modelled and freely worked using different tools. The main thing is, it leaves a lasting impression!

Versatile and easy to use

Baumit CreativTop is a ready-to-use product and is universally applicable on all standard backgrounds. It is particularly easy to apply, either manually or by spray machine. Baumit CreativTop can be used as a top coat on Baumit External Wall Insulation Systems, on old and new mineral plasters and putties, on concrete, on organically bound fillers and plasters as well as being suitable for application over renovation plasters.

Baumit CreativTop - Endless possibilities

Baumit Uniprimer

Ready-to-use multi-purpose primer as suction reducing agent and bonding agent for Baumit CreativTop.

Consumption: approximately 0.20 - 0.25 kg / m² on smooth backgrounds
About 0.40 kg / m² on coarse backgrounds

Baumit CreativTop

Ready-to-use, synthetic resin modelling render for creative facade design in exterior applications. Consumption is highly dependent on processing technology. See Product Data Sheet and Application Guidelines for further information.

Baumit CreativTop Max

Consumption: about 5.0 - 6.2 kg / m²
Yield: approximately 4.8 to 6.0 m²/ tub

Baumit CreativTop trend

Consumption: 4.2 to 6.5 kg / m²
Yield: approximately 4.6 to 7.2 m²/ tub

Baumit CreativTop Fine

Consumption: 2.8 - 4.2 kg / m²
Yield: approximately 7.2 to 10.7 m² / tub

Baumit CreativTop S Fine

Consumption: about 3.5 - 3.8 kg / m²
Yield: approximately 7.9 to 8.5 m²/ tub

Only available in white (0019)
